

Get to Know Us

*“We’re connecting people today
for a stronger community tomorrow.”*

– Kenge Adams, CEO and Founder

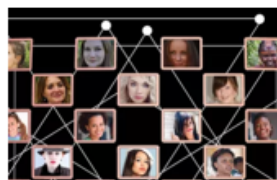

Your Partner in CSR Outreach

Connect Business Consulting is the **project management** and **relationship** bridge between corporations and community organizations, partnering to work together efficiently on **lasting change**. We are your project managers. We **align** all stakeholders: the givers, the receivers, and the volunteers. We **implement** programs with streamlined processes. And we **consult** on your future direction in Corporate Social Responsibility.

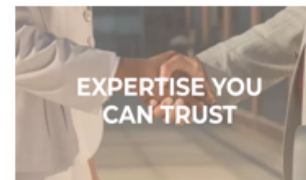

Commitment

Some **consultants** manage projects for corporations and organizations, but don't have a proven track record of 16 years of leading, commitment, and caring to improve the community. **Kenge Adams and her team have that.**

Valuable Network

Some **large corporations** have community outreach goals, but they don't have a network of contacts built over time through relationships to turn their intentions into reality. **Kenge Adams and her team have that.**

Technical Skills

Some **community organizations** with good intentions and high energy don't have the Project Management skills to bring all the pieces together today for a stronger community tomorrow. **Kenge Adams and her team have that.**
